## Ingredients

***Makes 4 Servings***

- 2 c (330 g) pureed partially frozen mango
- 1/2 c (120 mL) agave nectar
- 2 juice of limes

## Directions

1. This recipe works best if the mango is frozen, and then allowed to thaw for about 15 minutes. Once it has partially thawed, puree the mango along with the agave and the juice of 2 limes. Pour the puree into a shallow glass or metal bowl and then place it in the freezer.
2. After 30 minutes, stir the puree, and then repeat every 15 minutes thereafter until you are ready to serve.
